UNIVERSIDAD AUTÓNOMA DE COAHUILA

ENHRIPPRIMIEUR

INTRODUCTION TO THE UNIT

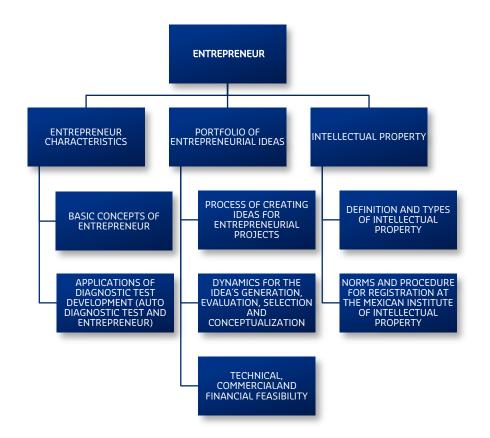

Entrepreneurship is a process through which opportunities are found to develop new ideas for creating the necessary products or services to satisfy the necessary needs. There is a process to undertake, it starts with the generation of the idea, and it must be evaluated, and then selected from a group of ideas, choosing it according with the technical, commercial and financial feasibility.

PURPOSE OF THE UNIT

The student will know the concept and characteristics of entrepreneur and the entrepreneurial process, and the importance of project generation and new ideas in economic development. The student will carry out exercises and activities that allow him to learn in a practical way.
