

DISCUSS HOW THEY USE TECHNOLOGY

Technology is part of our daily life. We use phones, computers, tablets, and the internet for many things: school, work, fun, or communication. Talking about how you use technology in English is very useful in today's world.

Technology is part of our everyday routine. It helps us connect with others, learn new things, and even express ourselves. Knowing how to describe how you use your phone, computer or internet in English makes you feel more confident and prepared for modern life.

How to Talk About Technology Use

Use present simple sentences to describe your habits:

- I use my phone to send messages.
- She watches videos online.
- We study using a laptop.
- He plays games on his tablet.

Use verbs like:

- use, watch, send, study, play, search, chat, call, take (photos).

Use expressions like:

- on my phone
- with the computer
- on the internet
- online
- using apps

Real Life Example

Friend: Do you use your phone a lot?

You: Yes, I use it to chat and watch videos.

Friend: I use mine to study and listen to music.
