## REGRETS, PLANS AND MORE!

### UNIT 4

# Introduction to Unit 4

## **WELCOME!**

### **INTRODUCTION TO UNIT 4**

The unit you are about to start aims to introduce specialized and more complex grammatical strategies you will gradually incorporate to your language repertoire through the lessons. These language approaches share a structural basis with strategies learned in previous units. By acquiring the knowledge proposed here, you might develop effective communicative skills to take into practice meaningfully in the speaking field.

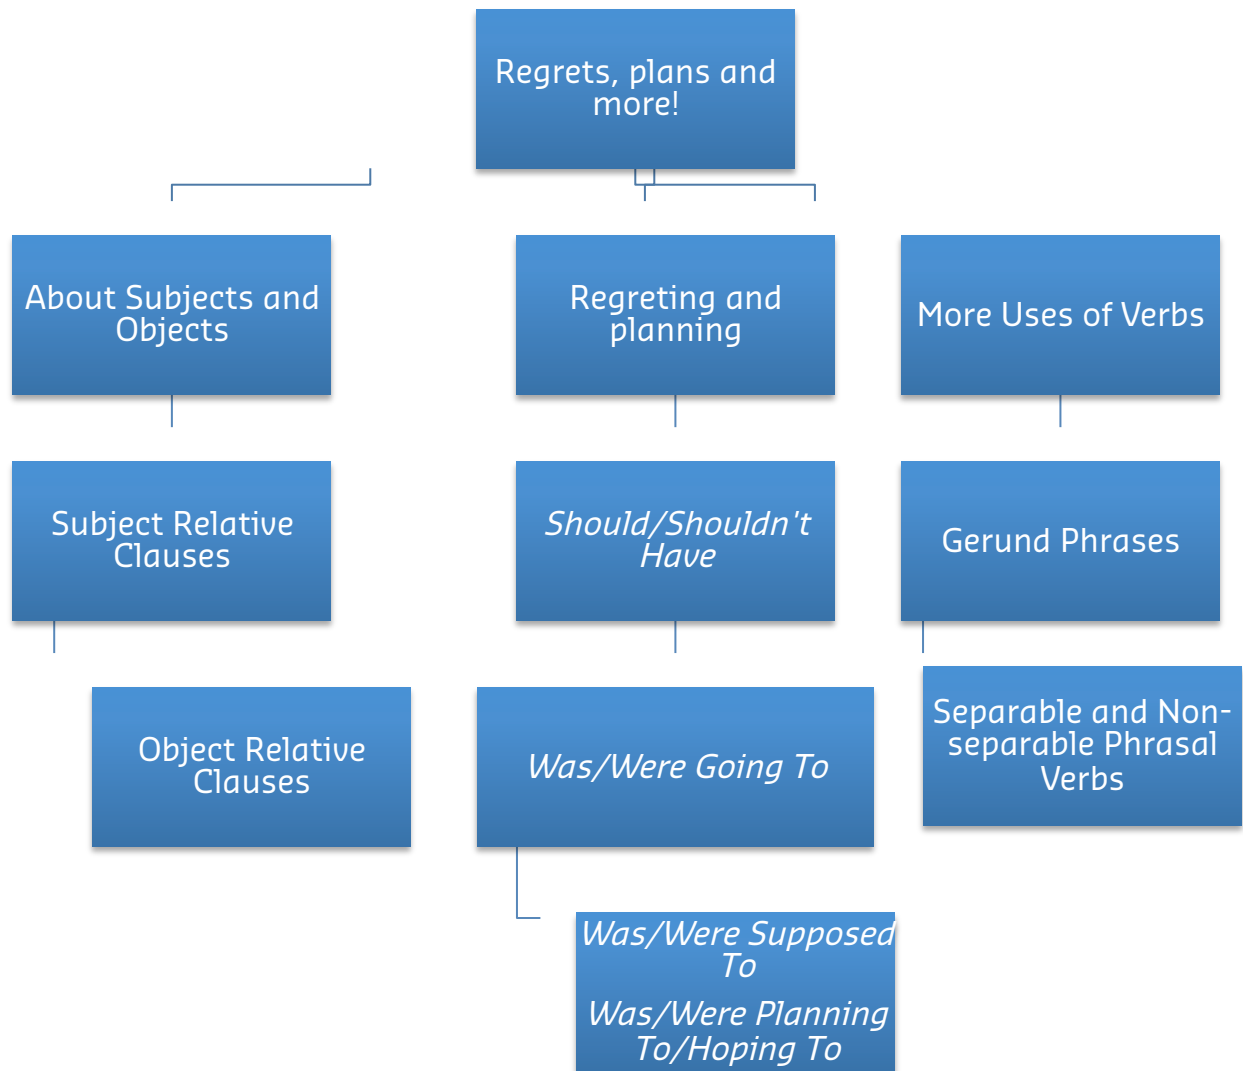

Remember that practicing your English beyond the academic requisite is also quite significant for your real progress. You can take advantage of every daily-life situation where the language can be used, for example; or even try clubs or activities you can adopt to keep improving your English.

### **UNIT OBJECTIVES**

By the end of the unit the learner is expected to be able to understand and produce ideas using Gerund Phrases, Subject and Object relative clauses, the structures *should(n't) have*, *was/were going to*, *was/were supposed to*, among others. He/she will be able to handle Separable and Non-separable phrasal verbs, and other grammatical structures.
