BIG CITY**

UNIT IV

Introduction Unit IV

INTRODUCTION TO THE UNIT

This unit will introduce you to the car industry, describing its parts and tools. It will also have you describe your favorite experience related to cars. You will also have the opportunity to learn about Mexico City's landmarks and write about the places you would like to visit. You will increase your ability to express ideas related to different types of businesses and how you can complain about bad service, which is very useful in daily life!

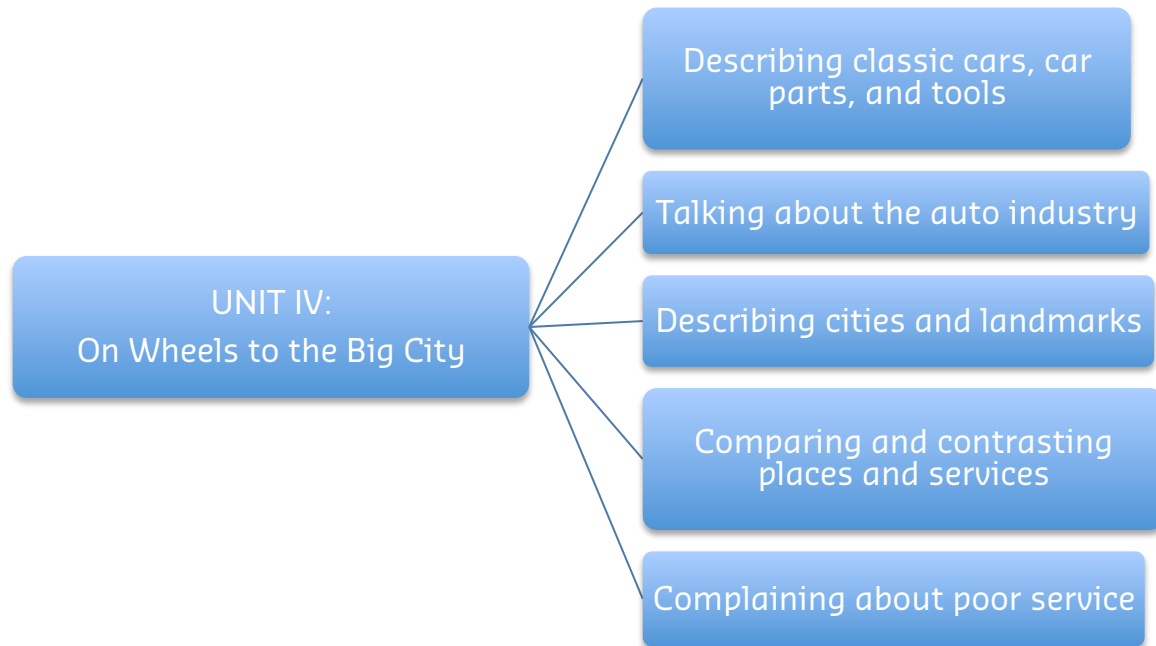

This is the last Unit of English IV, so try to make the best of it. Practice with extra material like songs and movies, read aloud, listen to the pronunciation of words and phrases; there is plenty of material online.

OBJECTIVE OF THE UNIT

By the end of the unit the student is expected to be able to handle vocabulary about cars and city landmarks and to understand and use grammatical structures related to connectors, connectors of contrast, and review the future tense and the future continuous. The student will also practice reading, writing and speaking.

Introduction Unit IV
